

# SURVEY RESEARCH RECRUITMENT

## Are you a caregiver of a loved one with Dravet syndrome?

The purpose of this study is to understand the concerns, wants, and needs of caregivers with loved ones diagnosed with Dravet syndrome (DS) related to the behavioral, communication, and daily living skills challenges of the condition.

### Participation includes:

- Completing three online surveys via QuestionPro (approximately 10 minutes per survey for a total of 30 minutes)
- Option to participate in a follow-up Zoom or phone interview to share any other parts of your story (30-45 minutes)

### We invite you to participate if:

- You are a caregiver of an individual with DS
- You speak and read English
- You have access to the internet and an internet-connected device
- You are at least 18 years of age
